Full Stack Developer

Full Stack Developer with hands-on experience building web and mobile applications using React.js, React Native, Node.js, TypeScript, and Supabase. Skilled in REST API development, authentication, PostgreSQL database operations, and production monitoring with Sentry. Experienced in integrating OpenAI APIs and building Retrieval-Augmented Generation (RAG) features with embeddings and pgvector. Available for freelance projects.

Technical Skills

Languages	:	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend	:	React.js, Next.js, React Native, Expo, Redux, Tailwind CSS, Bootstrap
Backend	:	Node.js, Express.js, REST APIs, Authentication
Databases	:	PostgreSQL, Supabase, Redis, pgvector
AI Integration	:	OpenAI API, RAG, Embeddings, Vector Search
Dev Tools	:	Git, GitHub, Docker, Vercel, EAS, Sentry, RevenueCat
AI Tools	:	Cursor, Claude Code

Experience

Junior Full Stack Developer — March 2026 – Present
Excellence Technosoft Pvt. Ltd. — *Noida sector 8*

- Developed and maintained web and mobile application features using React Native, Expo, JavaScript, and TypeScript.
- Built backend APIs, authentication flows, and database operations with Node.js and Supabase (PostgreSQL).
- Integrated OpenAI APIs and implemented RAG to power context-aware, AI-driven application features.
- Supported CI/CD and release workflows using Vercel and EAS (Expo Application Services).
- Implemented in-app subscriptions and tested purchase flows using RevenueCat and Google Play Billing.

Education

Swami Vivekanand Shubharti Univrsity — Meerut, Uttar Pradesh, INDIA
Bachelor of Computer Applications — *Jan 2021 – Dec 2024*

Mangalayatan University — Aligarh, Uttar Pradesh, INDIA
BCA — *Jan 2025 – Pursuing...*

Projects

AI Meet-Tracker *Python, TypeScript, OpenAI, Supabase, pgvector, Reactjs* Source Code

- Designed and developed a clean and modern website using **React, Typescript and CSS**
- Optimized website for speed and user experience
- Implemented semantic search using embeddings and pgvector to retrieve relevant knowledge-base content.
- Connected OpenAI APIs with backend services to generate accurate, context-aware chatbot responses.

Travel Agent Platform *Python, TypeScript, OpenAI, Supabase, pgvector, ReactNative* Source Code

- Built a cross-platform mobile app that helps users plan trips, with destination details and day-wise itinerary suggestions.
- Developed a hotel discovery feature showing nearby hotels along with their distance from the destination.
- Created backend APIs using FastAPI and used Supabase for authentication and database management.
- Connected OpenAI APIs with backend services to generate accurate, context-aware chatbot responses.
